When creating the Archi Line collection, our goal was to inspire and provide comprehensive interior design solutions - a collection that is matched to each other, thanks to which you can change your interior in a quick and cheap way.

The system we have designed offers virtually unlimited configuration possibilities.

The choice of the colour of the front, the body, the shape of the legs or the pattern - all thought out so that you can create your dream interior.

Hallway, living room, or maybe a bedroom? Where you use the panels and furniture of the Archi Line collection depends only on you.

NEW COLLECTION

WALL PANELS & ROOM FURNITURE

Choose which Archi Line solution you want to use: wall panels or room furniture? Nothing prevents you from choosing and combining all the proposed options, because... why not?

Wall panels available in 5 patterns and 5 colours are perfect as decorative wall elements in a teenager's room, a bed headboard in your bedroom, a TV wall or a panel behind the sofa in the living room.

If the pattern is too much for you, choose plain panels, which you will also find in 5 colours.

Installation of the panels is very simple, you do not need a professional for this. You can do the interior metamorphosis yourself in a few moments!

NEW COLLECTION

WALL PANELS & ROOM FURNITURE

We give you the opportunity to personalize your new furniture. Due to this, you can arrange your flat exactly the way you want it.

The base of Archi Line is 12 solids, which are available in 4 colours of bodies, and in 5 patterns and 5 colours of panels.

Your possibilities don't end there. You can decide for yourself whether you want a built-in, open or semi-open piece of furniture. It's up to you to choose whether to hang the furniture or put it up. If you decide on the second option, all you have to do is choose the appropriate legs...

You can assemble the furniture of the Archi Line collection yourself, using the assembly instructions.
